Welcome!

Dear Friends & Colleagues,

We invite you to join us for the 5th Annual Heart in Diabetes (HiD) CME Conference, a unique and exciting multidisciplinary program: Where the Heart, Kidney, and Diabetes Meet in Clinical Practice. The meeting will take place September 10-12, 2021, at the Sheraton Times Square Hotel in New York City. This year the conference will be a hybrid, combining live in-person and live-online followed by 90 days of on-demand access.

Since its inception in 2017, the HiD Conference has convened experts and practicing clinicians in a one-of-a-kind scientific meeting to share knowledge and best practices for managing patients with diabetes and cardio-renal-metabolic disorders in a state-of-the-art clinical program. This unique forum has emerged as a major effort to help clinicians improve care for patients with diabetes, cardiovascular disease (CVD), chronic kidney disease (CKD), heart failure (HF), and related conditions. These disorders share many pathological features and often occur in the same individual, but until recently they were treated as separate conditions. However, a wealth of evidence from recent trials have demonstrated cardiovascular benefits from agents that control blood glucose, lipids, blood pressure, and inflammation in people with diabetes, which supports a multi-specialty approach to patient care. Nevertheless, among practicing professionals, including experts, there is a gap in understanding the implications of these new developments on disease management. The HiD Conference will address this gap by examining the newest outcome data and providing clinicians with strategies for implementing this evidence base into everyday clinical practice.

Each year, the HiD Conference is a rousing success, with progressive growth in attendance and impressive conference evaluations. Over 2,400 clinicians from 76 countries registered for the 2020 HiD meeting. The

evaluations were remarkable, rating the overall quality of the meeting at 98%. Ninety-eight percent of participants stated that they will recommend the meeting to others and will return the next year.

The 5th HiD award, the Luminary in Cardiometabolic Medicine Award, will be presented to Dr. Robert Eckel who will provide a keynote lecture. In addition, key sessions will include COVID-19 in DM and CVD; the contemporary approach to ASCVD and diabetes; joint symposium with the journal Circulation; recent diabetes publications in cardiology; diabetes and CVD in diverse populations; imaging of atherosclerosis; obesity, diabetes, and the heart; dyslipidemia; advanced technology; cardiovascular outcomes trials; guidelines update; management of diabetes in 2021; heart disease in women; and heart failure and CKD. Each session will promote lively discussion by means of panels and debates with robust opportunities for the audience to interact with faculty. New this year, every day concludes with a one-hour panel discussion with featured faculty discussing and responding to questions, the implications to practice which were presented throughout the day. The meeting will also feature abstract presentations from scientists and researchers around the world, as well as several non-CME, industry-supported presentations.

Abstracts will be published in the American Heart Journal (www.journals.elsevier.com/american-heart-journal), Editor-in-Chief: Daniel Mark, MD, MPH.

If you are a cardiologist, endocrinologist, nephrologist, diabetologist, lipidologist, internist, or clinician with an interest in the science of the Heart in Diabetes, this meeting is for you! We personally invite you to join us in this exciting endeavor.

Register today! We look forward to seeing you in New York in September!

PROGRAM DESCRIPTION

This CME conference is a unique medical meeting that brings world-renowned clinical leaders in diabetes and cardiovascular disease and practicing clinicians together to improve the care of patients at a high risk of cardiovascular, metabolic, and kidney diseases. This program is designed to evaluate the clinical science aspects of diabetes, obesity, and CVD, focusing on the heart and kidney in diabetes. The goal is to develop appropriate comprehensive clinical management plans aligning endocrinologists, cardiologists, nephrologists and all other interested clinicians in their understandings of the impact of diabetes and CVD outcome trials on the clinical management of these very high-risk patients.

Upon completion of this meeting, participants should be able to:

- Evaluate the evidence supporting the use of SGLT2 inhibitors to reduce CKD, HF, and cardiovascular disease and mortality in patients with T2D
- Discuss the role of incretins in the management of obesity, diabetes, and their complications
- Evaluate the extent of vascular disease in diabetes, obesity, and cardiometabolic syndrome
- Provide comprehensive management of diabetes, addressing obesity, dyslipidemia as well as hyperglycemia
- Discuss changes in lipid management guidelines
- Evaluate the impact of CVOTs on guidelines and clinical practice
- Describe optimal use of technology, specifically CGM and its impact on diabetes and CVD
- Describe the state of heart disease in women
- Discuss diabetes, CKD, CVD, and HF in diverse populations
- Describe how to assess CV risk in DM with imaging and Biomarkers
- Recognize the role of sleep apnea in diabetes and CVD
- State contemporary management modalities of ASCVD risk in Diabetes
- Recognize the implication of diabetes and CVD on the severity of COVID-19
- Discuss the difference of the new Non-steroidal MRA and its effect on CKD in Diabetes

TARGET AUDIENCE

This educational initiative is designed for endocrinologists, cardiologists, diabetologists, nephrologists, internists, family physicians, nurse practitioners, physician assistants, and other healthcare professionals interested in the prevention and treatment of diabetes, obesity, cardiovascular disease, and associated conditions, as well as the effect of these conditions on health and society.

CME ACCREDITATION

You can earn up to 26.25 Credits

CME Accreditation

This activity was planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the joint providership of PESI Inc. and the Metabolic Endocrine Education Foundation (MEEF). PESI Inc. is accredited by the ACCME to provide continuing medical education for physicians.

AMA PRA Designation Statement

The PESI Inc. designated this other activity (live onsite and live online format) for a maximum of 26.25 AMA PRA Category 1 Credit(s)[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

MOC Points with ABIM

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 14 MOC points of Medical Knowledge MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program.

International CME

International Physicians are formally eligible for AMA PRA Category 1 Credit[™].

Physician Assistants

AAPA accepts Category 1 credit from AOACCME, Prescribed credit from AAFP, and AMA PRA Category 1 Credit[™] for the PRA from organizations accredited by ACCME.

Nurses

For the purpose of recertification, the American Nurses Credentialing Center accepts AMA PRA Category 1 Credit[™] issued by organizations accredited by the ACCME (Accreditation Council for Continuing Medical Education) for attendance at structured learning activities.

CA Nurses

Aspen CME Services is approved by the California Board of Registered Nursing, provider number CEP14739, designated the 5th HiD for approximately 26.25 contact hours.

Pharmacists

For the purpose of recertification, the American Council of Pharmacy Education accepts AMA PRA Category 1 Credit[™] issued by organizations accredited by the ACCME (Accreditation Council for Continuing Medical Education) for attendance at structured learning activities.

CDE

The National Certification Board for Diabetes Educators recognizes courses sponsored by PESI Inc. as approved ACCME provider. This course qualifies for 26.25 continuing education hours.

Registered Dietitian

For the purpose of recertification, the Commission on Dietetic Registration recognizes courses accredited with AMA PRA Category 1 Credit[™].

Satisfactory Completion for credits

All attendees must have completed and turned in a course attendance/evaluation form prior to leaving the conference. Each session claimed for credit must be attended in its entirety.
