• BRIEF BIO – SILVIO E. INZUCCHI MD

Dr. Inzucchi received his undergraduate degree from Fordham University in New York City and his M.D. degree from Harvard Medical School in Boston, Massachusetts. He completed his residency in Internal Medicine and his post-doctoral Fellowship in Endocrinology and Metabolism at Yale-New Haven Hospital, in New Haven, Connecticut, USA. He is currently Professor of Medicine at the Yale University School of Medicine in New Haven, where he serves as Clinical Chief of the Section of Endocrinology, Medical Director of the Yale Diabetes Center, and Program Director of the Endocrinology & Metabolism Fellowship.

Dr. Inzucchi has been an invited lecturer both nationally and internationally on many topics, most pertaining to clinical diabetes management. He has authored or co-authored more than 400 manuscripts, chapters, monographs, and abstracts, some published in the foremost medical journals, including the *New England Journal of Medicine* and *JAMA*. A former member of the editorial board of *Diabetes Care*, Dr. Inzucchi recently completed a 5-year appointment as Associate Editor of the *Journal of Clinical Endocrinology and Metabolism*. He served as co-chair of the writing group for the *ADA-EASD Position Statement on the Management of Hyperglycemia in Type 2 Diabetes*.

His current research interests include pharmacological antihyperglycemic therapy in both the inpatient and outpatient settings; and the link between type 2 diabetes, insulin resistance, and cardiovascular complications. He has held leadership roles in several large clinical trials related to diabetes medications and their cardiovascular impact.

Dr. Inzucchi also has a large academic clinical practice involving a wide spectrum of patients with endocrine diseases, with a focus on diabetes and pituitary/adrenal diseases.
