

Stephen J. Greene, MD

Dr. Greene is a heart failure cardiologist and Associate Professor in the Division of Cardiology and Duke Clinical Research Institute, at the Duke University School of Medicine. Dr. Greene's research focuses on improving quality of care and outcomes for patients with heart failure. He has been a co-investigator and co-author of multiple national and international heart failure trials studying medical therapies for heart failure, including the ASTRONAUT, SOCRATES-Reduced, COMPOSE, and TRANSFORM-HF trials. He has also served on leadership committees and led multiple analyses from national and international heart failure registries characterizing the quality of heart failure care. These registry programs include the CHAMP-HF registry, American Heart Association's Get With The Guidelines Heart Failure registry, the VICTORIA registry, and the CARE-HK in HF registry. He is the coordinating center Principal Investigator for the American Heart Association's Get With The Guidelines Heart Failure registry. Dr. Greene's collaborative work has led to more than 340 publications in peer-reviewed journals.
